FOR WOODWORKING
INDUSTRY

TWISTER

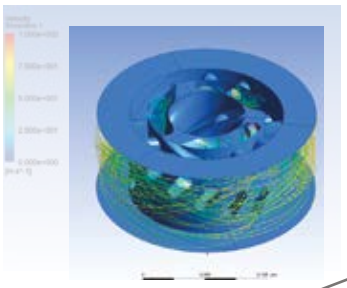
INNOVATIVO SISTEMA DI EVACUAZIONE DEL TRUCIOLO DALLA ZONA DI TAGLIO

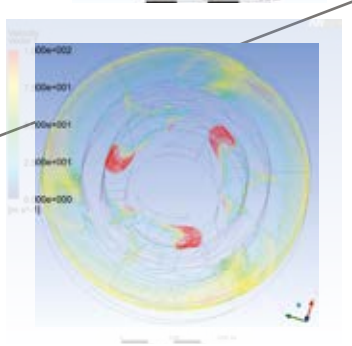
INNOVATIVE CHIP EVACUATION SYSTEM FROM THE CUTTING AREA

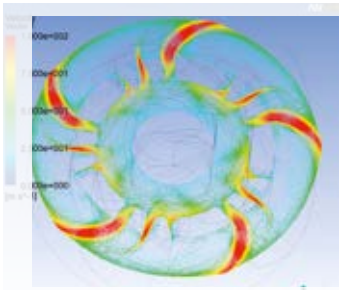
BREVETTATO
PATENTED

Utensil tre®

FRESA A FINIRE IN PCD/ PCD FINISHING CUTTER







Guarda il video/ Watch the video

CARATTERISTICHE/ FEATURES

Genera minor abrasione della superficie in lavorazione/ It generates less abrasion of the cutting surface

Aumenta la durata dell'utensile/ It increases the life of the tool

Non surriscalda il tagliente/ It doesn't overheat the teeth

Ottimizza il risparmio energetico/ It optimizes energy saving

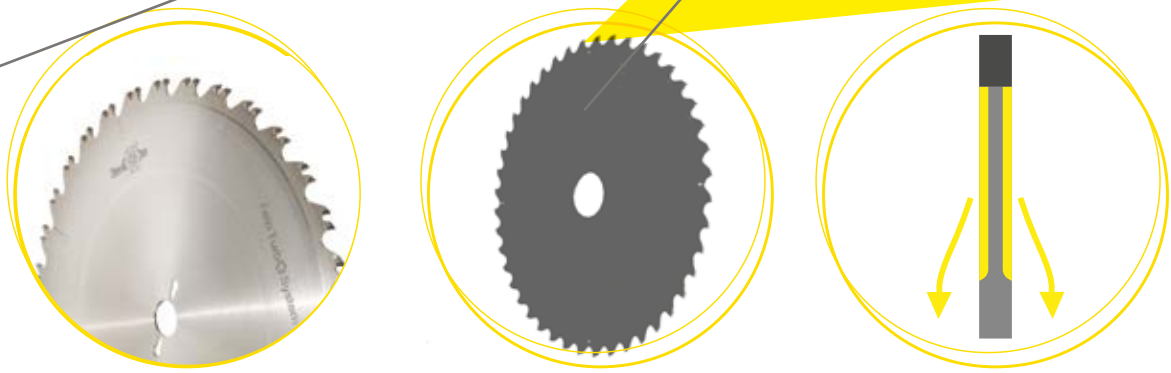
Numerose combinazioni di assialità/ Wide possibilities of shear angles

Recupero parte centrale delle frese a finire/ Reuse of central part of finishing cutters

Diminuisce la rumorosità/ Less noise

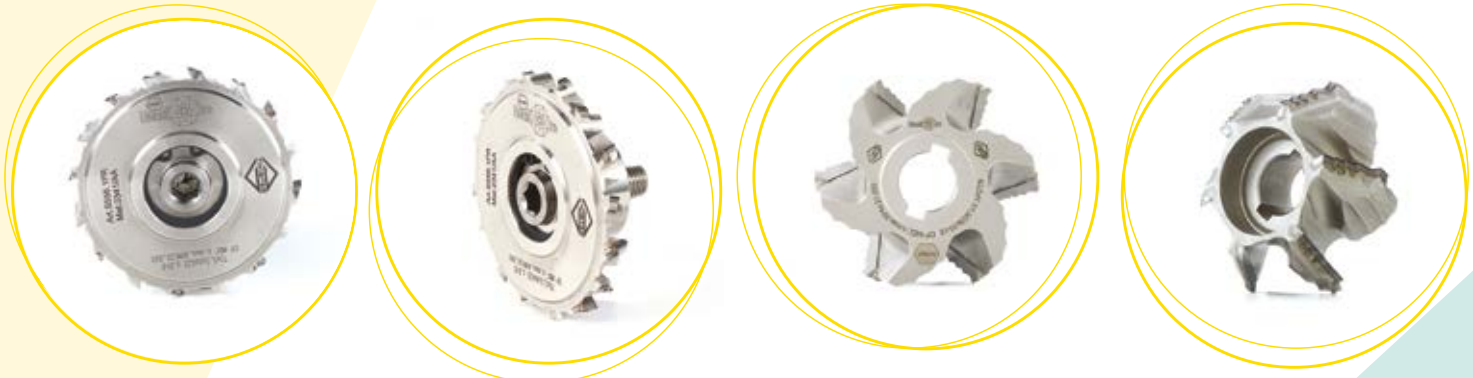
Rispetto delle norme UNI EN 847-1:2018/ According to the norm UNI EN 847-1:2018

LAMA CIRCOLARE TURBO IN PCD/ PCD TURBO CIRCULAR SAWBLADE



TRUCIOLATORE IN PCD/ PCD HOGGER

RIFILATORE IN PCD/ PCD TRIMMING CUTTER



TURBINA/ EXTRACTION TURBINE

SISTEMI DI EVACUAZIONE DEL TRUCIOLO/ CHIP EVACUATION SYSTEM

2006 **Lama Turbo System/** Turbo System sawblade

2011 **Rifilatore multiraggio Twister** prima generazione/
Twister multiradius trimming cutter 1st generation

2012 **Fresa a finire Twister** prima generazione **brevettato/**
Twister finishing heads 1st generation patented

2015 **Truciolatore compatto Twister/**
Twister compact hogger

2016 **Fresa a finire Twister** seconda generazione (**brevettato**)/
Twister finishing head 2nd generation (patented)

2019 **Fresa a finire Twister** terza generazione (**brevettato**)/
Twister finishing head 3rd generation (patented)
